Areas of Practice

We have extensive experience in many aspects of environmental law. Listed below are representative areas of our practice.

Environmental Law

Traditional

- Counseling on compliance with South Carolina and Federal environmental laws, rules and regulations including but not limited to air, wastewater, nonpoint source, solid and hazardous waste, underground storage tanks, wetlands and Superfund
- Air, wastewater, solid and hazardous waste, and wetlands permitting
- Environmental enforcement matters
- Regulatory compliance audits
- Identifying and evaluating environmental risks associated with the acquisition, selling, or financing of real estate
- Representing real estate clients with Brownfield agreements
- Representing clients before administrative boards and in litigation.
- Advising parties regarding remediation and concerning environmental consulting, engineering and remediation contracts
- Advising and representing clients in environmental criminal enforcement actions

Nonpoint Source - Stormwater

- Assist with municipal separate storm system (MS4) permitting and enforcement
- Assist with administrative appeals of stormwater permits
- Assist with stormwater compliance for commercial developments
- Assist with comments and challenges to total maximum daily loads (TMDLs)

Water Law

- Advising clients on water law issues
