Our extensive experience allows us to address many aspects of environmental law. We are proud to serve clients in the following areas:

- Due diligence reviews on regulatory program compliance.
- Assisting with air, wastewater, solid and hazardous waste, and wetlands permitting.
- Advising on water law issues.
- Identifying and evaluating environmental risks associated with the acquisition, selling, or financing of real estate.
- Representing real estate clients with Brownfield agreements
- Advising parties concerning environmental consulting, engineering and remediation contracts.
- Representing clients before administrative boards and in litigation
- Counseling on compliance with South Carolina and Federal environmental laws, rules and regulations including but not limited to air, wastewater, nonpoint source, solid and hazardous waste, underground storage tanks, wetlands and Superfund.
- Advising and representing clients in environmental criminal enforcement actions.
